5th CONGRESS OF ASIAN SOCIETY OF HEAD AND NECK ONCOLOGY (ASHNO)
In Conjunction With

5th ORL Head And Neck Conference &
2nd Congress Of Indonesian Head And Neck Oncologist Society

23—25 March 2017
Bali International Convention Centre, Indonesia

The Art Of Head and Neck Cancer Management

For more details, please visit: www.ashnocongress2017.com
Dear Delegates, Colleagues, and Friends

Bali, known also as "the Island of Gods", is one of more than 17,000 islands in the Indonesian archipelago. A tropical paradise that feels like a fantasy, where you can soak up underneath the sun on a fine stretch of the white sand, or commune with the tropical creatures. A blend of spectacular mountain sceneries and beautiful beaches with warm and friendly people. For these reasons, we would like to invite you all to explore the magical and mystical Bali where we host the 5th Congress of Asian Society of Head Neck Oncology in conjunction with 5th Otorhinolaryngology Head and Neck Oncology and with 2nd Indonesian Oncologist Head and Neck Society.

Bali's cultural and natural diversity has inspired the Organizing Committee to choose the theme of this conference as "The Arts of Head and Neck Cancer Management". The management of Head and Neck Cancer are multidiscipline, multimodality, yet personalized. Therefore, special tasks and knowledge are needed to treat the patients, such as skill from physic, psychology, empathy making our effort a special art form in its own respect.

The goal of the Conference is to bring together international groups of experts of Head and Neck Surgeons from ENT and surgical Oncology, radiologist, histopathologist, radiation Oncologist, medical Oncologist, nutritionist, rehabilitation and others to deepen our understanding of the disease in order to ease the patient’s burden and at the same time improve the outcome for patients with Head and Neck Cancers.

We have accumulated interesting scientific programs that will cover a wide range of sub-themes and selected topics related to Head and neck cancer. The Conference will be a catalyst for further interaction and collaboration among the participants. Organizing Committee will select the best 3 from U-40 research and case report, also for poster research and case report.

We hope that you will enjoy the conference and have a memorable time.

To our foreign participants, I would like to wish you "Selamat Datang" or a warm welcome, to Indonesia and particularly to the island of Bali, the world’s favorites destination for business, leisure and fun.

Marlinda Adham, MD., PhD
Chairman, Organizing Committee
5th Congress of Asian Society Head and Neck Oncology
5th Congress of ORL-Head and Neck Oncology
2nd Congress of Indonesian Oncologist Head and Neck Society
Dear Friends and Colleagues,

On behalf of the International Federation of Head and Neck Oncologic Societies it is my distinct pleasure to invite you to the “5th Congress of Asian Society of Head and Neck Oncology (ASHNO) in conjunction with 5th Congress of ORL-Head and Neck Oncology, and 2nd Congress of Indonesian Head and Neck Oncologist Society” at Bali International Convention Center Indonesia from March 23-25, 2017.

Distinguished International speakers will share groundbreaking research findings and present original scientific works on the state of the art and new developments, covering a broad range of topics in Head and Neck Oncology. The format of the meeting will encourage interaction between all health care professionals and trainees from our specialty as well as from allied fields interested in Head and Neck Cancer, diagnosis, treatment, outcomes and frontiers in research. This feast of scientific and educational sessions planned during the congress will give you an excellent opportunity, to learn and Exchange ideas and information in the frontiers of Head and Neck Oncology.

In addition our hosts have planned a wonderful social program showcasing the warm Indonesian hospitality with mouth watering cuisine, art and culture. Bali, the most precious of the 17000 islands in the Indonesian archipelago, is truly a Paradise on earth, offering an exciting and wonderful destination for rest and relaxation for you and your family. The Balinese art and history as well as the beauty of the beaches on this island are second to none. We hope that you will consider not only attending the congress but bringing your family to enjoy the amazing touristic pleasures and hospitality that Bali offers.

The International Federation of Head and Neck Oncologic Societies (IFHNOS), takes great pride in this congress of ASHNO and Indonesian Societies, organized by our Asian colleagues for the whole world to attend, enjoy and renew our friendships. I look forward to seeing you in Bali.

Professor Jatin Shah, MD, PhD(Hon), DSc(Hon), FACS, FRCS(Hon), FDSRCS(Hon), FRCSDS(Hon), FRACS(Hon)
Professor of Surgery, Memorial Sloan Kettering Cáncer Center, New York.
CEO, IFHNOS
Welcome to Asian Society of Head & Neck Oncology (ASHNO).

ASHNO is a multi-disciplinary society for head & neck oncology, which was initiated in 2008 by the strong leadership of Prof. Hao, the founding president & general secretary.

By the recent advances in medical sciences and technologies, now, multi-disciplinary approaches are required to enable the personalized therapy for the individual patients with head and neck cancers. As well known, head and neck cancers in Asian countries show different biological behaviors and characters from western countries in various aspects. Thus, it is really an important idea that all the countries in the Asian region gather and share our experiences and knowledge, in order to boost up our clinical practice to the next level, to promote clinical and basic researches and to raise the next generations.

Scientific meeting has been held every 2 year. First congress was held in Taipei (Taiwan 2009), 2nd in Goa (India 2011), 3rd in Cebu (Philippines 2013) and 4th in Kobe (Japan 2015). 5th congress will be held in Bali March 23 to 25, 2017 by the host of Prof. Marlinda Adham. I am looking forward to see many of you again in the beautiful island!

Ken-ichi Nibu, MD, PhD
President, Asian Society of Head and Neck Oncology
Professor and Chairman
Department of Otolaryngology-Head and Neck Surgery
Kobe University Graduate School of Medicine
Welcome Message from ASHNO Secretary General

The Asian Society of Head & Neck Oncology (ASHNO) was initiated in July 21, 2008 in San Francisco with the aim of promoting and advancing the knowledge of prevention, diagnosis, treatment, and rehabilitation of neoplasms and related diseases of the head and neck.

The first ASHNO meeting was hosted by myself in Taipei, Taiwan in 2009, and the ASHNO was formally established. The second ASHNO meeting was hosted by Prof. Anil D'Cruz in Goa, India in 2011 where the Executive Board decided to register the ASHNO permanently in Taiwan. After stepping down from the position of Founding President, I then became the Secretary General of ASHNO. Subsequently, Prof. Alfredo Pontejos hosted the third ASHNO meeting in Cebu, Philippines in 2013. This was followed by Prof. Ken-ichi Nibu of Japan, who hosted the fourth scientific meeting in Kobe in 2015. As you may know, the fifth ASHNO will be held in Bali, Indonesia, to be hosted by Dr. Marlinda. It is my strong belief that this meeting will be a most successful one.

I would also like to take this opportunity to report the current strategy of ASHNO, which is: Foothold in Asia, Eye on the World. In the past few years, the name of this society has been graciously used to support several international meetings through the organization of ASHNO sponsored symposiums. Even though the basic principles of managing Head and Neck tumors are the same, in Asia, where we have our own distinct civilization and culture, it is essential that we take this into consideration in order to develop our own approach in Head and Neck Oncology.

ASHNO is truly a multi-disciplinary society of Head & Neck Oncology that welcomes scholars from different specialties to come and join us. I also strongly encourage each and every member of our society from different countries to actively participate in this meeting and in our future meetings. It is my belief that the next ASHNO meeting in Bali will be your most unforgettable one yet.

Secretary General, ASHNO
Sheng-Po Hao MD, FACS, FICS
5th CONGRESS OF ASIAN SOCIETY OF HEAD AND NECK ONCOLOGY (ASHNO)

ASHNO COMMITTEE MEMBERS

President
Prof. Ken-ichi Nibu

Founding President
Prof. Sheng-Po Hao

This full-day tour is an eye-opener for first-time visitors to the island and a delightful experience for those with an appreciation for Balinese architecture and art. All three structures are fine examples of Hindu influences on Balinese religious beliefs and traditional architectures.

This Tanah Lot tour completes your Bali experience. Tanah Lot, this island’s most iconic temple and landmark located on Bali’s south-western coast, is where you can enjoy the most exotic sunsets behind the silhouette of the temple. Before reaching Tanah Lot, just in time to catch the mesmerizing views, this Tanah Lot tour takes you on a half-day journey that starts after noon to see two other temples that are silent witnesses of Bali’s glorious past and are still functional and revered by the Balinese to this day, namely: Taman Ayun, a stronghold of a 17th century dynasty, and Alas Kedaton, Set within a nutmeg forest home to hordes of grey long-tailed macaques.

After a satisfying breakfast of Balinese cakes, fruits, black rice pudding and a bowl of fishing fleet. No fish will make it into our shopping basket that has not crystal clear eyes stop will be on the beach with Ibu Nyoman who is collecting the fish from the returning sea. Visitors will witness and experience the very busy, early morning activities of many of the ingredients are purchased local vegetable and fish market where classes start with an early morning visit to the style used in our island homes. This tour takes you to see the historical and cultural highlights Bali has to offer, through fascinating temples and palatial complexes. This day out shows you some of Bali’s most fascinating sites: the Kerta Gosa royal court house dating back to the 18th century; Besakih Temple, Bali’s largest temple complex; and Gunung Kawi, an 11th century temple featuring 10 stone shrines carved into the cliff face. This full-day tour is an eye-opener for first-time visitors to the island and a delightful experience for those with an appreciation for Balinese architecture and art. All three structures are fine examples of Hindu influences on Balinese religious beliefs and traditional architectures.

An ocean sunset, cliff-top fire dance and stunning views of Bali’s legendary surf breaks are the three pluses of this tour. The actual highlight, though, is the Uluwatu Temple, one of the most spectacular Hindu temples along the Bali coastline. Built by a high Hindu priest from East Java named Dang Hyang Dwijendra in the 11th century, this beautiful temple is located atop a limestone cliff towering 90 meters above the Indian Ocean. Here, enjoy a performance of The Ramayana epic-based Kecak Dance with the majestic temple and sunset as its background, then continue on to a small fishing village at Jimbaran, where a seafood dinner will be served right on the beach, concluding the memorable evening.

Discover a delightful blend of tradition, art, nature and spirituality that defines the true essence of a Bali experience through this tour. Visit the Batubulan art village and delight in the Barong and Keris Dance, a spectacular performance depicting the fight between good and evil, and a classic example of the Balinese way of acting out mythology. Next are stopovers to the gold and silversmith communities of Celuk and Mas, and Bali’s artistic heartland of Ubud. A drive up a mountain slope and across beautiful terraced rice fields will bring you to Kintamani and Penelokan, where the still-active Mount Batur Volcano towers overhead. Seven miles in diameter and sixty feet deep, Batur caldera is simply astounding. A stopover at the well-maintained, aged-old traditional village of Penglipuran concludes the tour.

This package offers an unforgettable tour and education experience among the more than 100 species of animals housed at the recreational park and active wildlife conservation center, Bali Safari Marine Park. Book this package and get one time Safari Journey Trip, Fresh Water Aquarium, Animal Show and Elephant Show.
